| <ul style="list-style-type: none">• Updated custom math keyboard• Maintained a custom formula renderer written in Objective-C• Bug fixes and QA primarily in UIKit | |

EDUCATION

- | | |
|--|---------------------|
| Faculty of Electrical Engineering and Computing (FER), University of Zagreb | Sep 2019 – Feb 2025 |
| University of Zagreb – Faculty of Electrical Engineering and Computing – Croatia, <i>Master's in Computer Science</i> | Sep 2022 – Feb 2025 |
| <ul style="list-style-type: none">• thesis: <i>Solving the Vehicle Routing Problem with heterogeneous fleets using Genetic Algorithm</i> | |
| iOS certificate – Five Agency at FER – Croatia | Mar 2022 – Jul 2022 |
| <ul style="list-style-type: none">• Learned fundamentals of iOS development in UIKit on a real world project (MovieApp) | |
| University of Zagreb – Faculty of Electrical Engineering and Computing – Croatia, <i>Bachelor's in Computer Science</i> | Sep 2019 – Jul 2022 |
| <ul style="list-style-type: none">• thesis: <i>Solving the Electric Vehicle Routing Problem</i> | |

TECHNICAL SKILLS

Advanced: Swift, SwiftUI, UIKit, The Composable Architecture (TCA), Python, Git

Intermediate: Objective-C, SwiftData, Swift Testing, XCTest, Java, C

PERSONAL PROJECTS

LiftJot – Personal project – *Still working on it*

Apr 2026 – Today

- App for tracking gym progress
- Wanted to practice developing the app from scratch the whole way, from start to finish, as well as submission to the App Store (not done yet - stay tuned)
- Used SwiftData and Swift Testing, written in SwiftUI with an MVVM inspired architecture
- Check out the source code on GitHub

OTHER SKILLS AND INTERESTS

Languages: English (full professional proficiency), Croatian (native), German (Basic understanding)

Interests: Software development in general, cars
